Web 2.0

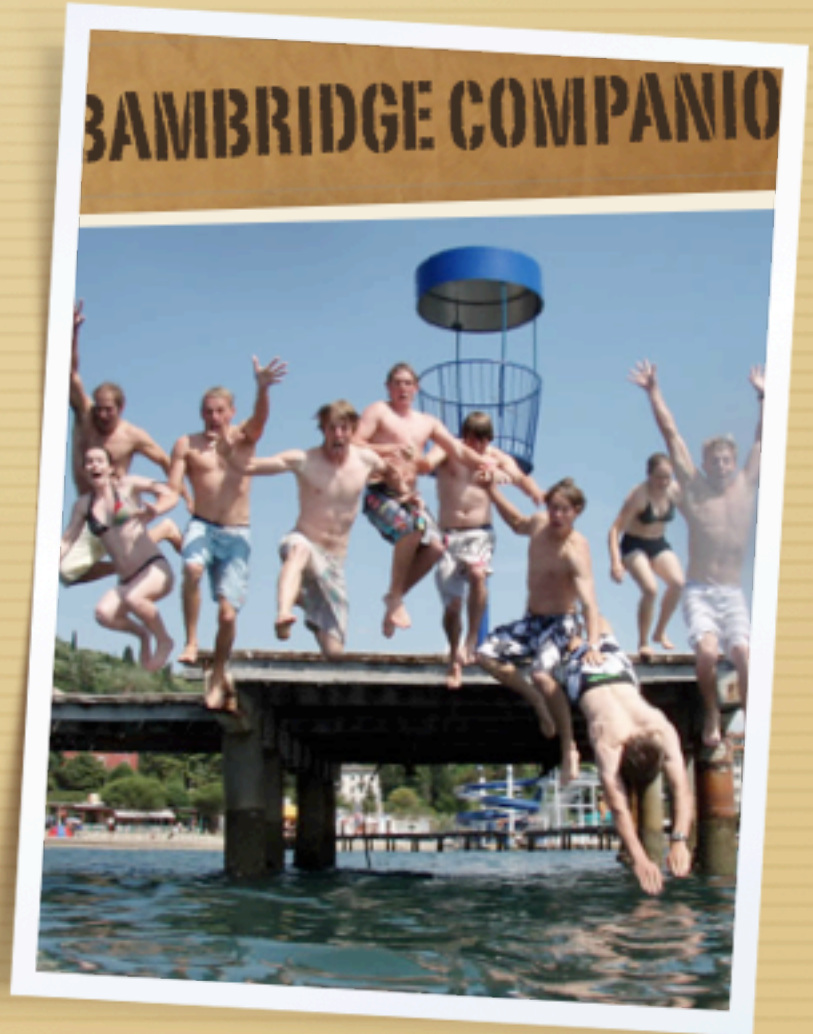
PLE is an approach to supporting learning.

This involves the use of different practices using social software in different contexts.



The PLE is what occurs in people's heads and our job is to provide flexible, rich and useful ingredients, devices, resources, and opportunities for interaction.

About Stephen Downes

Born in Montreal, Quebec, Stephen Downes lived and worked across Canada before joining the National Research Council as a senior researcher in November, 2001. Currently based in Moncton, New Brunswick, at the Institute for Information Technology's Internet Logic Research Group, Stephen has become a leading voice in the areas of learning objects and metadata, weblogs in education, content syndication, digital rights and related issues.

web2.0 workgroup

The Web 2.0 Workgroup is a network of premium weblogs that write content about the new generation of the Web. Combined, these sites reach a large readership of influential technology and media professionals. If you would like to subscribe to all of these blogs, download and import the OPML file into your favorite RSS reader. **NEW!** Check out an OPML mash-up of the Workgroup, by J Wynia using our OPML file plus the Yahoo Search API.

WELCOME TO WOW2!

WOW2 is for all who are using the tools of the internet whether it be in a classroom setting, leading seminars, authoring books, maintaining blogs or wikis, or just enjoying the tools of the internet in an educational and exciting way.

WOW2 is brought to you by Cheryl Oakes, Jennifer Wagner, Sharon Peters, & Vicki Davis, four women who not only love using the tools of the Internet but also love sharing the tools with others.

We will be collaborating in a variety of ways on this site. Our **Bulletin Board** is available for questions and answers, our **Tuesday night chat** is great fun and we invite you to join! Take the time to get to know Sharon, Vicki, Cheryl, & Jennifer a bit more, read our monthly **newsletter** and **member blogs**, and enjoy our **store**!

We hope to have you join us!! Please click **HERE** to register.

Anytime, Anywhere?

It is an **ecology of learning** in which both the learner and their environment respond flexibly to constant change in interaction with each other.

At the heart of personalisation is the understanding that learning environments comprise the totality of factors with which the learners interact, including people, spaces and resources.
