

Aerial Skiing

**Performance Analysis Servicing
in extreme environments.**

**Camilla Mather
Performance Analysis Unit
Australian Institute of Sport**

Outline

- Aerial Skiing
- Environmental challenges
- Training environment
- Competition environment
- Review of information
- Future directions

Anticipated benefits of servicing

- Allow coach to view training with own eyes
- Real time feedback for coach from multiple perspectives
- Fast track skills from water to snow
- Reduction in injury rates
- Development of robust all-environment feedback system
- Real-time feedback in competition

park city
A mountain range
of possibilities.
